

BANK WARDEN – ANNUAL REPORT

I can be very brief. No permits were issued last year and there was very little fishing activity apart from on a couple of occasions where local residents informed me of adults fishing from outside the Village.

Many of the children who previously fished the Pit are now over 16 year's old so are no longer eligible. I would like the Parish Council to consider amending the eligibility to allow anyone from the Village to fish. This would allow children 16-18 to fish and returning students. This is far safer from a fish welfare perspective as these older individuals are experienced anglers, have the right equipment, plus we can increase the permit fee
